

# Effective SAFETY Solutions

## SOLUTION N°7

**BUSINESS: Rolling**

### THE ISSUE

- Increase pedestrian safety
- Reduce the risk of collisions between forklift trucks and other vehicles.

### THE SOLUTION (additional level of protection put in place)

Type:    **Technical**     **Procedures**     **Others**

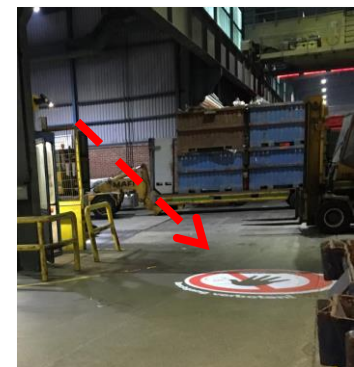

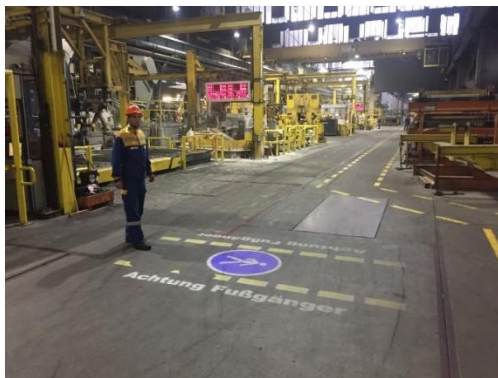

### CRITICAL CATEGORY

- Mobile Equipment and pedestrian safety.

### Description of key feature or change versus current conditions:

- Use of a projector for signs on traffic ways.
- The projected signs can be designed as needed.
- The projector can be connected to a sensor. Signs are only shown if pedestrians move in the area.
- Long lifetime.
- No repainting of traffic signs necessary.
- Solid Hardware. The test in the Remelt Department (difficult environment) showed no quality loss after one year.

### PICTURES (if applicable) or ADDITIONAL INFO

### SAFETY BENEFITS – pros/cons

- Increase of pedestrian safety
- Support for fork truck driver
- Little maintenance

### IMPLEMENTATION COST (k€) AS APPLICABLE

- Approx. 6,000 € + installation
