

Authorized Companies to use the LCA report from the Dutch National Environmental Database (NMD)

The members of the Building Group of European Aluminium have executed a lifecycle assessment (LCA) study on aluminium sheets and aluminium composite panels, de facto also valid for mill finished products.

This LCA has been executed in conformity with the requirements and guidelines from the Dutch 'NMD Bepalingsmethode Milieuprestatie Gebouwen en GWW-werken', version 1.1, March 2022. The Bepalingsmethode is grounded in ISO 14040 – ISO14044 and NEN-EN 15804:2012+A1+A2 (2019)

This LCA is provided for the exclusive use of our registered European Aluminium Building Group members as below:

- 3A Composites GmbH

- Almecco S.P.A.

- Aluminium Duffel BV

- Coil NV/SA

- Elval Colour S.A

- Novelis Deutschland GmbH

- Slim Aluminium S.p.A

- Speira GmbH
