

Data & Market Intelligence Manager

Brussels, October 2024

Vacancy

Founded in 1981 and based in Brussels, European Aluminium is member-based association representing Europe's most complete and thriving metals value chain. Our 100+ members, representing more than 600 plants in 30 European countries, include primary aluminium producers, downstream manufacturers of extruded, rolled and cast aluminium, producers of recycled aluminium and national aluminium associations.

Aluminium is a strategic raw material for the EU green transition, being essential for many of the clean technologies needed to deliver this transition, from solar renewable power to alternative fuel cells and hydrogen production to high-voltage cables and batteries. Because of the EU green transition alone, its demand is set to rise massively in the years to come, primarily due to the growth in electric vehicles, solar and wind power, and electricity networks. Our industry is committed to fostering change to accelerate the transition towards a Net-Zero economy, in line with the European Green Deal objectives.

Description

We are seeking a highly motivated and detail-oriented Data & Market intelligence manager to join our team. You will be part of the Trade & Market Intelligence Department under the supervision of the Director Industry & Market Intelligence. The ideal candidate will have 3 to 4 years' experience with a strong interest in i) data collection & analysis ii) industry market intelligence iii) trade data. Apply for the position and become part of a dynamic work environment where diversity and creativity thrive.

Main tasks

This is a non-exhaustive list of tasks, which could be adapted or expanded based on the priorities of the association.

1. Market intelligence & Statistical analysis

- Collecting and processing of data (*e.g. production, consumption, by market end uses*) from the aluminium producers in Europe, from metal supply (primary and recycling) to semi fabrication (rolling and extrusions) and users with respect for confidentiality
- Extracting and analysing customs trade data (*on regular and on ad hoc basis*) for various aluminium products

- Aggregating and visualisation of the results (e.g. graphs, tables) in ad hoc MS pack office solutions (e.g. *Power Point, Excel, Word*). The knowledge of data visualization tools (e.g. Tableau software) is a plus
- Supporting on ad hoc basis members related to their market intelligence or trade data requests.

2. Trade:

- Quarterly data collection of company information in the framework of trade defence activities
- Processing of data & develop visuals for presentation (graphs, tables, slides etc.), editing documents, updating database, etc.

3. Committee management

- Coordinate twice per year with the Director Industry & Market Intelligence the management and the organisation (e.g. *logistic and content support*) of the various statistical committee meetings.
- General support: members database (Extranet), in preparing and organising internal and external meetings, presentations depending on the needs

Experience and skills

- Relevant studies on university level: Engineering, Economics, Business, Mathematics, sciences or similar
- Strong analytical skills with 3 to 4 years' experience in collecting and analysing data. Knowledge of data visualisation tools (e.g. Tableau software) is a great plus.
- Excellent knowledge of Excel (e.g. pivot table) and of the Microsoft pack office (PowerPoint, Word and Outlook)
- Strong organisational skills, ability to work in team and willingness to help and learn
- Self-starter, able to work independently, organised and with great attention to detail and ability to meet deadlines
- Excellent knowledge of written and spoken English
- An interest in EU affairs

We offer

- A full-time position with a competitive salary package
- A young, dynamic, and professionally enriching international working environment.
- Excellent team spirit and flexible working environment (for real!).
- Plenty of opportunities for development and learning.
- Opportunity to work for an industry committed to the EU sustainability and climate agenda.
- Starting date: as soon as possible

How to apply?

Interested candidates should send:

- 2-page max CV.
- 1 page motivation letter.

Please send your application to Nijole Zaniauskaite, Administrative Officer at: jobs@european-aluminium.eu. Please specify in the subject line of your email your name and the position you are applying to: "Data & Market intelligence manager – [Your full name]".

Deadline for applications: 20 November 2024.

Only short-listed candidates will be contacted.

European Aluminium ensures equal opportunities, treatment and access to all candidates regardless of their sex, race, colour, ethnic or social origin, genetic features, language, religion or belief, political or any other opinion, membership of a national minority, property, birth, disability, age or sexual orientation.
